

# BIKERNIEKU TRASE - WRX CIRCUIT, LETTLAND

Rennstrecken / Teststrecken

# Bikernieku Trase - WRX Circuit

## Rennstrecken / Teststrecken

<b>Projekt</b>	Bikernieku Trase - WRX Circuit
<b>Ort</b>	Riga
<b>Land</b>	Lettland
<b>Installationsjahr</b>	2016
<b>Kunde</b>	CSDD, S.Eizensteina iela 6, Rīga, Latvija, LV – 1079
<b>Planer</b>	Geobruugg AG
<b>Ausführende Firma</b>	Binders
<b>Ausgangslage</b>	<p>World Rallycross is becoming more and more popular and with two very successful Latvian drivers - Janis Baumanis and Reinis Nitiss - Riga became a logical choice for hosting the next World Rallycross Race.</p> <p>As a rallycross circuit must consist of a asphalt and gravel section with a minimum of one jump special requirements are given to all parties. Special motorsport barriers and solutions are required to fulfill all requirements.</p>
<b>Massnahme</b>	<p>As a specialist in motorsport barriers Geobruugg AG got early involved in the project to consult the different parties in the project. Special cost engineering was conducted for the project and unique solutions have been developed such as the double sided concrete barrier, marshal post or the mobile pit wall.</p> <p>Geobruugg AG provided consultancy, barrier manufacturing and delivery as well as on-site training for new barrier types.</p>
<b>Weitere verbaute Anwendungen</b>	Rennstrecken / Teststrecken
<b>Systemhöhe</b>	2.5 m, 3.5 m
