

RED BULL RING I, ÖSTERREICH

Rennstrecken / Teststrecken

Red Bull Ring I

Rennstrecken / Teststrecken

Projekt	Red Bull Ring I
Ort	Spielberg
Land	Österreich
Installationsjahr	2014
Kunde	Red Bull
Planer	Geobruigg AG
Ausführende Firma	Geobruigg AG
Weitere Unternehmen	NORDBETON GmbH

Ausgangslage	Our mobile FIA debris fence was selected to provide temporary spectator protection during the Formula 1 event. The high safety level of the solution in combination with a good view from the grandstand convinced the circuit operator. Furthermore a complete turnkey solution was offered which limited the number of companies required for the solution.
---------------------	---

Massnahme	Installation of the mobile FIA debris fence to protect the spectators seated in the grandstand at the Formula 1 race.
------------------	---

Systemhöhe	3.5 m
Systemlänge	244 m
