# Road America

## Race circuits & proving grounds

Project	Road America
Location	Plymouth
Country	United States
Year of installation	2013
Customer	Elkhart Lake's Road America, Inc.
Engineering	Geobrugg AG
Initial situation	Road America is a permanent road course. It is located midway between the cities of Milwaukee and Green Bay. NASCAR started to race again on <a href="#">Road America</a> in 2010.
Description	After an incident on Road America track it was decided to upgrade the safety along the circuit especially at turn 1 and turn 5. The FIA debris fence was selected offering the best spectator protection whilst providing the best spectator view to the action on the road course. The fence with a length of 310 m and a height of 3.5 m was mounted directly to an existing concrete wall. Planning, manufacturing and delivery was organized by Geobrugg.
System height	3.5 m
System length	310 m
