

RUDSKOGEN MOTORSENTER, NORWAY

Race circuits & proving grounds

Rudskogen Motorsenter

Race circuits & proving grounds

Project	Rudskogen Motorsenter
Location	Rakkestad
Country	Norway
Year of installation	2012
Customer	Rakkestad Motorpark AS
Engineering	Geobrugg AG, Circuit design: Tilke GmbH & Co. KG
Initial situation	The Rudskogen Motorsenter is Norway's oldest asphalt race circuit. After becoming the national motorsport facility of Norway in 2006 the circuit is undergoing significant development with a new circuit design by Hermann Tilke.
Description	<p>The first part of the FIA debris fence installation was realized with the support of Geobrugg supervising the design of the debris fence as well as the delivery of key elements such as:</p> <ul style="list-style-type: none">- FIA approved high-tensile wire mesh ROMBO G80/4- HELIX spring fixation- Cables every 50 cm incl. hardware such as stretcher, cable clips and shackles <p>The delivery and installation took place in July /August 2012. The installation was made with personnel of the Rudskogen Motorsenter. Once more the clear structured design, delivery and installation manual proved very helpful during installation.</p>
System height	2.5 m
System length	436 m
