# Bikernieku Trase - upgrade

## Race circuits & proving grounds

<b>Project</b>	Bikernieku Trase - upgrade
<b>Location</b>	Rīga
<b>Country</b>	Latvia
<b>Year of installation</b>	2015
<b>Customer</b>	CBF SIA Binders
<b>Engineering</b>	Geobrugg AG
<b>Initial situation</b>	<p>Bikernieku Trase is one of the oldest Soviet Race Circuits existing - close to 50 years in age. It was required to start the upgrading process. In a first step the asphalt, barriers and run-off areas had to be upgraded.</p>
<b>Description</b>	<p>Geobrugg was involved in the upgrade design consulting local architects and the race circuit director on different barrier types and run-off areas.</p> <p>After the project award Geobrugg supplied the debris fence panels for the mobile Debris Fence and provided NORDBETON moulds to produce locally the concrete barriers.</p> <p>NORDBETON and Geobrugg conducted local training sessions in order to enable the local team to produce, install and repair the motorsport barriers independently.</p> <p>After completion of the installation and final inspection a certificate of completion and compliance was provided.</p>
<b>System height</b>	3.5 m
<b>System length</b>	400 m
