

LOS BRONCES (2), CHILE

Avalanche Prevention

Los Bronces (2)

Avalanche Prevention

Project	Los Bronces (2)
Location	Los Bronces Mine, Santiago de Chile
Country	Chile
Year of installation	2014
Customer	Anglo American, Los Bronces
Engineering	Anglo American, Los Bronces
Contractor	Geobrugg Andina
Other participating companies	Geobrugg Iberica
Initial situation	A new installation was built near a slope with a high avalanche potential. Protective measures were therefore necessary.
Description	The installed avalanche fences prevent the formation of avalanches.
Other installed applications	Underground & Open Pit Mining
System length	300 m - 300 m
Gliding factor	3.2
