

ZHEJIANG CIRCUIT, CHINA (RP)

Circuitos de competición/Instalaciones de prueba

Zhejiang Circuit

Circuitos de competición/Instalaciones de prueba

Proyecto	Zhejiang Circuit
Lugar	Shaoxing
País	China (RP)
Año de instalación	2016
Cliente	Zhejiang International Circuit
Ingeniería	Geobrugg AG

Situación inicial

[Zhejiang Circuit](#) will be the leading motorsport destination in China.

At the heart of the development is a 3.2 km FIA Grade 2 circuit designed and constructed to the highest international standards. Surrounding the circuit is more than 100,000 m² of motorsport-focused leisure and commercial development designed to enhance the on-track experience and create a hub for the region's growing automotive industry.

Four years in development, the vision for Zhejiang Circuit has been developed by an international team with a wealth of experience in delivering large scale motorsport and luxury leisure developments. The brief for this remarkable development had two primary objectives: to build the ultimate playground for drivers and racing enthusiasts and to provide automotive manufacturers and brands a cutting-edge platform to showcase their products to the ever-growing Chinese market.

Descripción

Geobrugg was early involved in the project. We did the consulting for the client and the designer: For the most economical solution and for the highest safety standard for drivers, spectators, and workers along the circuit.

Several different motorsport barrier systems are installed such as the Geobrugg Debris Fence (standard foundation), Geobrugg Debris Fence (shallow foundation), Pit Wall Fence and a wall mounted Debris Fence.

Geobrugg furthermore provided installation instruction to the local contractor and was checking the installation progress and quality on a regular basis.

Otras aplicaciones instaladas

Circuitos de competición/Instalaciones de prueba

Altura del sistema

2.5 m, 3.5 m
