

STEIGERWEG, HEIDELBERG, ALEMANIA

Protección contra caídas de rocas

Steigerweg, Heidelberg

Protección contra caídas de rocas

Proyecto	Steigerweg, Heidelberg
Lugar	Heidelberg
País	Alemania
Año de instalación	2014
Cliente	Civil Engineering Department, Heidelberg
Ingeniería	Dr. Spang, Ing.-gesellschaft mbH
Contratista	Bremer Schutz Verbauungen GmbH
Situación inicial	Pedestrians and traffic on Steigerweg road, at the Western end of the town Heidelberg, was in danger because of falling rocks and stones as well as weathered hillside rock. In the past, the hillside was worn away after heavy rainfall. It was planned to permanently secure Steigerweg road and the parking space in the Eastern part of the area by installing a rockfall protection barrier and fixing the exposed rocks with anchors.
Descripción	Installation of two rockfall protection fences at a length of 195 meter just behind an existing supporting wall right beside the road Steigerweg.
Objeto protegido	Carretera
Altura del sistema	2.0 m
Longitud del sistema	195 m
