

HÖLJES RX CIRCUIT, SUÈDE

Circuits de course / Pistes d'essai

Höljes RX circuit

Circuits de course / Pistes d'essai

| | |
|---------------------------------------|--|
| Projet | Höljes RX circuit |
| Ville | Höljes |
| Pays | Suède |
| Année d'installation | 2017 |
| Client | Finnskoga Motorklubb |
| Ingénierie | Geobruigg |
| Situation de départ | The Höljes FIA Worldrallycross Championship round is one of the most prominent events in the calendar. The RX circuit is improving the safety by making adjustments to the existing facility. |
| Description | <p>The Geobruigg debris fence with 6 meters post spacing is an ideal match of improved and tested safety with an unobstructed view on the circuit.</p> <p>Update 2018</p> <p>After a great success in 2017, the circuit decided to further upgrades of the facility by adding more Geobruigg debris fence with 6 m post spacing. Additionally, some marshal posts were equipped with the Geobruigg / NORDBETON marshal post solution offering increased protection for track workers.</p> |
| Autres applications installées | Circuits de course / Pistes d'essai |
| Hauteur du système | 2.5 m, 3.5 m |
| Longueur du système | 250 m |
