

HAIGERLOCH, GERMANIA

Protezione dagli impatti

Haigerloch

Protezione dagli impatti

Progetto	Haigerloch
Luogo	Haigerloch
Paese	Germania
Anno di installazione	2015
Cliente	Landesratsamt Zollernalbkreis
Progettazione	Geobrugg
Situazione iniziale	<p>A natural stone wall along a country road was reconstructed. The duration of the reconstruction was several months and a complete stoppage of the country road was to be avoided. To enable a partial usage of the road, a road protection with concrete elements was needed. Protection fences (height 2 m) were to be added to the concrete elements to retain potential rocks.</p>
Descrizione	<p>Temporary road protection</p> <p>Know how from motorsport area</p> <p>Safety measure to secure traffic from falling rocks</p>
Oggetto protetto	Strada
Altre applicazioni installate	Barriere stradali mobili
Altezza del sistema	1.5 m
