

# TONWERKE KELLER AG AERIAL CABLEWAY SAFETY NET, SVIZZERA

Protezione dagli impatti

# Tonwerke Keller AG aerial cableway safety net

## Protezione dagli impatti

<b>Progetto</b>	Tonwerke Keller AG aerial cableway safety net
<b>Luogo</b>	Frick
<b>Paese</b>	Svizzera
<b>Anno di installazione</b>	2009
<b>Situazione iniziale</b>	The company transports clay by an aerial cableway over the railway track and a street. To secure these traffic routes in case of a failure, a reliable measure is necessary.
<b>Descrizione</b>	Geobruugg installed a mesh construction with ROMBO. Due to its high loading capacity it provides the safe solution.
<b>Oggetto protetto</b>	Infrastrutture
