Ülke	Norveç
Kurulum Yılı	2012
Müşteri	Rakkestad Motorpark AS
Mühendislik	Geobruigg AG, Circuit design: Tilke GmbH & Co. KG
Durum	The Rudskogen Motorsenter is Norway's oldest asphalt race circuit. After becoming the national motorsport facility of Norway in 2006 the circuit is undergoing signifiant development with a new circuit design by Hermann Tilke.
Açıklama	<p>The fist part of the FIA debris fence installation was realized with the support of Geobruigg supervising the design of the debris fence as well as the delivery of key elements such as:</p> <ul style="list-style-type: none">- FIA approved high-tensile wire mesh ROMBO G80/4- HELIX spring fiation- Cables every 50 cm incl. hardware such as stretcher, cable clips and shackles <p>The delivery and installation took place in July /August 2012. The installation was made with personnel of the Rudskogen Motorsenter. Once more the clear structured design, delivery and installation manual proved very helpful during installation.</p>
Sistem boyu	2.5 m
Sistem uzunluğu	436 m
