

SYMMONS PLAINS, АВСТРАЛИЯ

Гоночные трассы

Symmons Plains

Гоночные трассы

Проект	Symmons Plains
Место	Perth TAS
Страна	Австралия
Год установки	2016
Клиент	Symmons Plains
Проектировщик	Geobrugg AG
Ситуация	<p>Symmons Plains has been largely a construction zone since late last year thanks to a \$ 2 million state government grant to lift safety and presentation standards at the circuit.</p> <p>Safety work has included the refurbishment of all of the 2.41 km layout's gravel traps, with 5,000 tonnes of new gravel to arrest out of control cars and bikes.</p> <p>A kilometer of earth-filled tyre walls around the inside of the circuit has also been replaced by concrete, running from partway down the back straight all the way around to Turn 2.</p> <p>The exit of Turn 2 meanwhile sees a new debris fence installed to protect spectators.</p>
Описание	Geobrugg AG was involved in the layout design, manufacturing and delivery of the Geobrugg Debris Fence for turn 2.
Другие конструкции	Гоночные трассы
Высота системы	2.5м
