Sochi Autodrom  
Sochi

2014

Stroi International  
Tilke GmbH & Co. KG

On October 12, 2014, the first Formula One Grand Prix took place in Sochi, Russia. Gebrugg had been assigned the task of building the fences around the circuit and protecting the 65'000 spectators.

Gebrugg coordinated, planned, produced and supervised the installation. In total, 40'000 m<sup>2</sup> security fences were installed along the race track in Sochi with panelized Debris Fence, Debris Fences, and Pit Wall Fences according to FIA guidelines.

Swiss TV SRF reported in its business program «ECO» about the project and escorted Gebrugg in the process from production to approval in Sochi. Watch it here (in German only): [Gebrugg secures race track in Sochi](#)
