

FIERZA HYDROELECTRIC POWER STATION #1,

Fierza Hydroelectric Power Station #1

/

Fierza Hydroelectric Power Station #1
Fierza

2014

KESH Albania
Cresta Geo Switzerland

Rockfalls endangered the roads around Fierza hydroelectric power station.

Rockfall protection with TXI-010 barriers (system with no retaining ropes) and RXI-100 barriers.

As seen in the photos, parts of the project were installed by helicopter, clearly demonstrating how lightweight Geobrugg's systems are.

Road, Building

100 kj

2.0 m, 3.0 m, 4.0 m
15 m - 80 m
